

RUTGERS UNIVERSITY ORNAMENTAL DOGWOODS

Jersey Star® Series

***Cornus x 'KN30-8' VENUS®* PP# 16,309**

Outstanding hybrid, distinguished by exceptionally large, white floral bracts, superior winter hardiness, good tolerance of drought conditions, and high resistance to the incitants of Powdery Mildew and Dogwood Anthracnose

***Cornus x 'KN4-43' STARLIGHT®* PP# 16,283**

An advanced generation hybrid exhibiting a vigorous nature and impressive floral display of large, white bracts on dark glossy green foliage. Disease and insect resistance of *C. kousa*

New from Dr. Edwin Orton ...

Brightening the sky for over fifteen years!

The Stellar Series[®]

Aurora Constellation Stellar Pink Celestial Ruth Ellen Stardust

***Cornus x 'Rutgan' Stellar Pink*[®] PP#7207**

Blush pink. Heavy floral display. Marginally upright in habit. Strong vigorous grower. Clean, disease resistant foliage. Blooms after *C.florida*, but before *C.kousa*. No known disease problems. The Stellar series made news when they were released - A new generation of *Cornus* was born, ones that would resist most of all known problems including mildew and anthracnose. Stellar Pink remains a best seller

***Cornus x 'Rutcan' Aurora*[®] PP #7205**

More spreading than the other whites. A heavy bloomer. Highly resistant to powdery mildew. Flowers are white with overlapping bracts.

***Cornus x 'Rutdan' Constellation*[®] PP#7210**

Creamy white bracts, which are well divided and paddle shaped. More upright and erect growth habit than the other whites in the series, also more open.

***Cornus x 'Rutdan' Celestial*[®] PP #7204**

Creamy white when fully developed. Bracts overlap. Very clean and disease resistant foliage. Heavy blooming. The bracts are white with a tinge of green and form a deep cup
