**COURSE DESCRIPTION:**

This course is designed to provide students within the disciplines of food, agricultural, natural resources, and human (FANH) sciences with an interdisciplinary experiential (high impact) learning opportunity that focuses on production and application of plant natural products and food systems within the landscape of Southern India.

**ABOUT THE COURSE:**

The course goal is to expand students' knowledge through a cultural, pedagogical and student group experience in collaboration with Amrita Vishwavidyalaya (Amrita University <https://www.amrita.edu>). Students will have an opportunity to interact with the host institution's faculty and students who specialize in the field of plant natural products, food, and agriculture. In addition to in-classroom learning, students will live and experience life in a pre-selected rural village through the host institution's Live in Labs® program. Students will collaborate with Amrita university students to understand traditional practices in these areas and devise sustainable solutions to challenges faced in the community using experiences and knowledge from their academic major. The advantages of group work allow students from different cultures to gain knowledge and skills not necessarily incorporated within their academic program. For example, a Rutgers Food Science major may collaborate with an Amrita University Engineering major, or a Rutgers Business major may collaborate with a student from the agricultural program at Amrita University.

The Live in Labs® program is a multidisciplinary experiential learning program that exposes students to challenges faces by rural communities in India. The students learn about the problems faced by these communities to develop sustainable solutions through an inclusive approach encouraging "out of the box thinking." Multidisciplinary research and interdisciplinary teamwork foster high impact

learning goals. The thematic areas for the Live in Labs® program are Agriculture & Risk Management, Water & Sanitation, Energy & Environment and Health & Hygiene.

## COURSE LEARNING GOALS:

- a. Describe (knowledge level) how agricultural practices and food production in rural India differ from modern agriculture.
- b. Explain (comprehension level) the use of plant natural products in cultural and medicinal practices in India (Ayurveda).
- c. Identify (comprehension level) ethnographic and ethnobotanical issues for a rural village India through community engagement.
- d. Formulate (synthesis level) through collaboration, possible solutions to those issues by applying their pedagogical background and on-site observations and analyses.

## ASSIGNMENTS/RESPONSIBILITIES, GRADING & ASSESSMENT:

## ACCOMODATIONS FOR STUDENTS WITH DISABILITIES

Rutgers University welcomes students with disabilities into all the University's educational programs, including study abroad opportunities. To receive consideration for reasonable accommodations, a student with a disability must contact the appropriate disability services office at the campus where you are officially enrolled, participate in an intake interview, and provide documentation: <https://ods.rutgers.edu/students/documentation-guidelines>. If the documentation supports your request for reasonable accommodations, your campus's disability services office will provide you with a Letter of Accommodations. Please share this letter with your instructors and discuss the accommodation with them as early in your courses as possible. To begin this process, please complete a registration form available from <https://webapps.rutgers.edu/student-ods/forms/registration>.

While we will do whatever possible to accommodate any student who wishes to participate, there may be some practical constraints related to the services and facilities available at Amrita University and at the assigned rural village. If you have any specific questions, please contact one of the instructors and Megan Francis- Director, SEBS Office of Global Engagement.

## ACADEMIC INTEGRITY

Enter optional text here or delete this box. Below is required

The university's policy on Academic Integrity is available at <https://academicintegrity.rutgers.edu/sites/default/files/pdfs/current.pdf>. The principles of academic integrity require that a student:

- properly acknowledge and cite all use of the ideas, results, or words of others.
- properly acknowledge all contributors to a given piece of work.
- make sure that all work submitted as his or her own in a course or other academic activity is produced without the aid of impermissible materials or impermissible collaboration.
- obtain all data or results by ethical means and report them accurately without suppressing any results inconsistent with his or her interpretation or conclusions.
- treat all other students in an ethical manner, respecting their integrity and right to pursue their educational goals without interference. This requires that a student neither facilitate academic dishonesty by others nor obstruct their academic progress.
- uphold the canons of the ethical or professional code of the profession for which he or she is preparing.

Adherence to these principles is necessary in order to ensure that

- everyone is given proper credit for his or her ideas, words, results, and other scholarly accomplishments.
- all student work is fairly evaluated, and no student has an inappropriate advantage over others.
- the academic and ethical development of all students is fostered.
- the reputation of the University for integrity in its teaching, research, and scholarship is maintained and enhanced.

Failure to uphold these principles of academic integrity threatens both the reputation of the University and the value of the degrees awarded to its students. Every member of the University community therefore bears a responsibility for ensuring that the highest standards of academic integrity are upheld.

### **SEBS DEI STATEMENT**

The course supports an inclusive learning environment where diversity, individual differences, and identities (including race, gender, class, sexuality, religion, ability, etc.) are respected and recognized as a source of strength and enhanced learning. Students are expected to respect differences and contribute to a learning environment that allows for a diversity of thought and worldviews. We will not tolerate disrespectful language or behavior against any individual or group. If you feel as though you have been disrespected or treated unfairly by the instructors or any other individual please let us know. You may speak with the instructors in person, over email or report anonymously via the Office of Academic Programs. In addition, you may also report bias to the Rutgers Diversity and Inclusion initiative using this link: <http://inclusion.rutgers.edu/report-bias-incident/>.

### **DISCIPLINARY POLICY**

Students are expected to conduct themselves in an appropriate manner throughout the trip. In short, there is a zero-tolerance policy for student misbehavior while on this trip. Disciplinary action, including receiving a failing grade in the course and potential for immediate return to the US, will be taken as appropriate. Please work with us to ensure a safe, healthy, and respectful environment for everyone. Let's remember to show our appreciation and consideration for the hardworking staff and faculty at Amrita University, who work hard to accommodate us. Whenever we can, let's offer our assistance to make their jobs a little easier.
